Dear Sir / Madam,

**Sub: General Announcement**

We are pleased to announce that Afcom has partnered with Air India SATS Airport Services (AISATS), a leading gateway and cargo handling services operator, for freighter operations at the upcoming Noida International Airport.

AISATS, through its wholly-owned special purpose vehicle AISATS Noida Cargo Terminal Private Limited (ANCTPL), aims to position Noida International Airport as North India's premier cargo gateway. This initiative is designed to complement existing major hubs like Delhi and Mumbai while supporting India's ambition to become a global trade powerhouse, the company said in a statement. Among Indian airports, Delhi processes the highest air cargo tonnage in terms of export and import. This strategic partnership provides an opportunity for Afcom to penetrate the India's largest air cargo market.

The partnership marks a significant milestone in strengthening India's cargo ecosystem, bringing together AISATS' world-class infrastructure expertise with Afcom's expanding international freighter network.

Kindly take the same on records.
